**Liana Robert**

Aloha. My name is Liana and I thank you for being here.

When people ask me what I am, they are asking me to label myself. Many labels potentially "fit". I have been referred to - as psychic, visionary, seeress, spiritual teacher, medicine woman, teacher, mentor, shaman, energy worker, artist, nutritionist, wellness educator, lawyer, mother, yogini, all of which "apply" but none fully descriptive.

**Ultimately no label matters.** The people who find this path are meant to, and when we work together, you have entered **the path of Unconditional Love.**

In terms of what I "do", there are many things, all of which circle back to the ONE true thing, **providing a path for you to Awaken to the Divine Within, reclaim personal sovereignty.**

Out of state? 

Yes. I'm moving to Texas at the end of Nov... but it's not the physical move thats requiring courage. I can do that. I'm taking my daughter without telling her father. We're bolting... and I will tell him after we're gone. It's all on the DL until it's done. This is the path that is required to protect her... thy will be done.

Hope you've had a safe drive Liana ... one more question- I heard Spain has 90 or more vax rate,...

We can no longer go by the 2 month rule for 2 reasons:

- 1. People are going to need booster after booster just to try and stay alive
- 2. The technology with each booster is getting smarter and stronger and more of a threat

Oh yes remember that too now 🙏❤️ and that when they are a bit older I'm forgot what age ran...

My kids (2 &4) also react when in contact with my v'd ex and his v'd relatives. Liana said they are exposed to very dark energies when with them. She told me when they come back to me to sage them and do the protection prayer. I also do the cord cutting and that really helps.

Liana, how much will citizenship and passports matter in the coming years? Will borders collapse?

For the next few years, certain borders will be iron clad. United States is one such place. The US will be the stronghold on the planet, which was part of its original design. Citizenship and passports will be essential and enforced.

Places like Europe will eventually be borderless.

Places like Australia and NZ will be more like giant prisons. No one out, no one in. Unless you're a GMO human.

Exactly since some still don't see the urgency to leave and are still attached to their Homeland...

Yes.

I have been stressing the urgency since early 20/20.

I hate to see everything I've said would happen, happening.

What's so weird is I feel less and less lonely every day as I deepen my connection to the Divine... m...

I don't feel lonely at all... and I've been without real life friends, family, partner for 3 years now. Of course I have my kids but virtually no adult contact aside from my clients. I never imagined I could thrive like this.... But here I am and it's good stuff. Plus when you see what options are out there... nah.

Omg so did you have to feel that pain again? While clearing it?

Yes.

There was one point last Tuesday where I literally said in my mind.. I don't think I can survive this.

It was because the past life torture was blending in with the current pain I was experiencing.

Red flags were in those weekly Q&A sessions. I couldn't wrap my brain around how this woman (Liana) supposedly could use energy to heal your ear aches, other body stuff and that you didn't have to go to a doctor. [REDACTED]

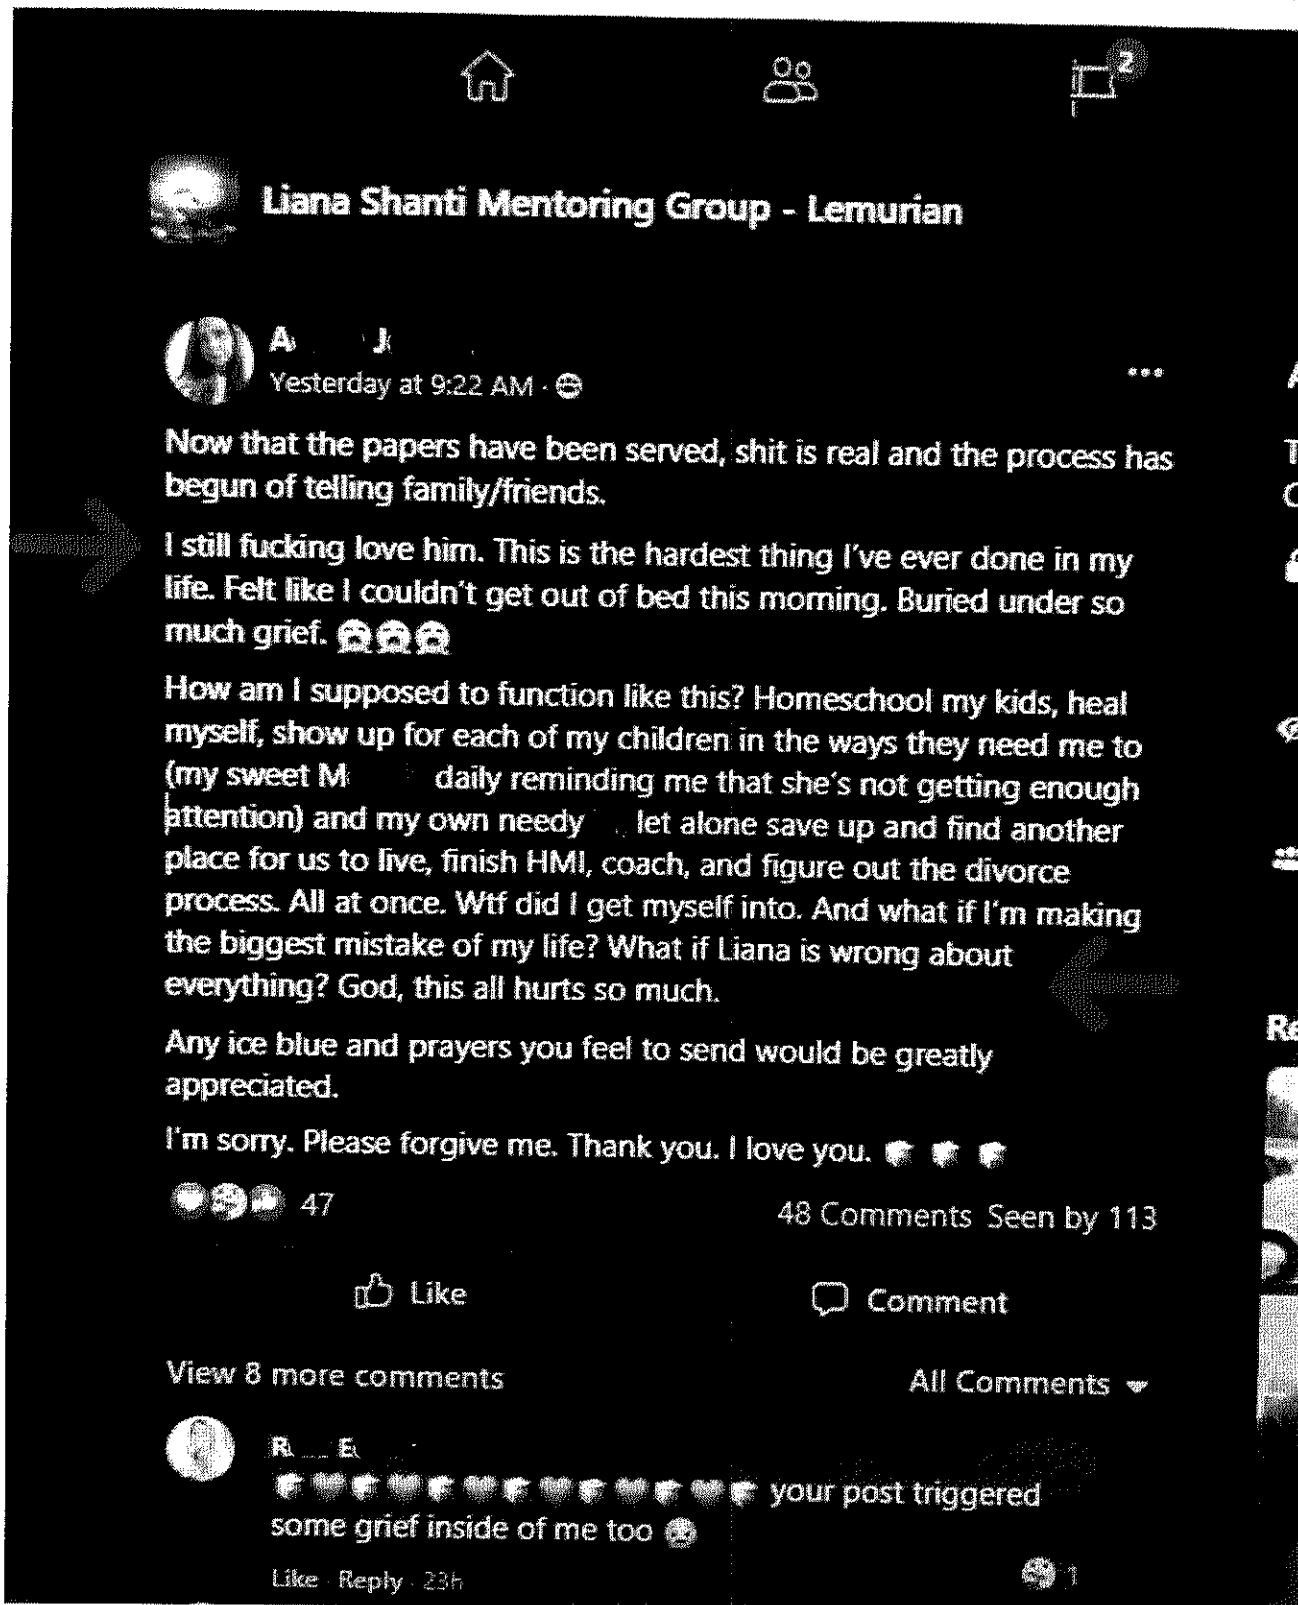

[REDACTED] (she was 2-3 at the time) Liana said he's definitely molesting her and that just sent me over the edge and I flipped out on my ex even though I didn't believe it. I'm not proud of that, he's a good dad.

But I kept going to the weekly sessions and following her [REDACTED] had me listen to the Surrender Experiment on my [REDACTED] so I was ready to surrender to anything when I got [REDACTED] even if it felt a little weird

[REDACTED] Liana would send her followers "sacred medicine" and then walk them thru it on the phone. So [REDACTED] took a drug that Liana mailed to her and was tripping [REDACTED] and Liana told her to take a bath. That was another red flag. She was all alone and Liana was in Hawaii on a telephone
