To Whom It May Concern,

Our names are B and D Wi . Our daughter, H began interacting with Liana Shanti in March of 2020. In July of that year she told me a little bit about this woman and her mother wound and father wound programs and how we all have to be healed from these wounds. At that time we weren't that concerned but over the next year we could see H changing. She had always been into health but she started doing these body cleanses. Only juicing for like 84 days. Doing a lot of coffee enemas. But by the fall of 2021 she started not coming to family functions and then did not even come to our traditional Christmas festivities. She said she needed time to herself. She also told me at that time that her Uncle had sexually abused her at 10 months old and also one of her brothers. I was floored. I told her that I was nursing her at that time and that I would never have let her be out of my sight. Then she said it was probably when she was 3??? By January she had completely cut us out of her life. We heard that she was selling a lot of her household items and we thought that was very strange. By March of 2022 we contacted her ex-husband B H and he said that she had asked him in Dec if she could take their daughter Isla to live in Florida. He had refused her request. We had no idea that she was thinking of relocating to Florida. B was very worried that she would try to kidnap his daughter and flee to the States. He had I 's passport flagged at that time. It was April 14, 2022 when we learned that H had tried to go cross the border in later March. B reported it to his lawyer and a judge immediately took I away from H that day. She has only had supervised visits since that time with B having sole custody of I . But it has not stopped her from her involvement with Liana. In fact things just progressed to get worse. H started putting over social media that her father B W sexually abused her from 10 months to 10 years old. H was always close to B and never once had any

problems him. We were a close family and helped her through everything in her life. For her to turn on us is completely out of character. She was also a very devoted mother and would always put I first. What we have gone through since Liana came into our lives has been nothing short of a living hell. I wouldn't wish this on any family. I has had to give up her life with her mother and even much of her family because it is hard for us to see her that often. This is just a brief description of the pain and agony we have been through. We pray that no other family will ever have to go through an experience like this.
