Re: Liane Wilson, 1:19-cr-00105-SOM-1

April 19, 2022

Dear Judge Oki Mollway,

My name is S L and my family member is involved in Liane Nancy Wilson's cult.

My cousin R (name has been changed by Liana Shanti to K A) connected another individual named A B (name changed by Liana Shanti to M O) into Liana's organization. My cousin fled from Regina, SK to Jacksonville, FL in December of 2021 after isolating herself from family and friends and selling off all her things. R (K), A (M) and 2 other women and 11 children are all living under the same roof. I have been told by individuals that they are actively recruiting other members of Liana's group to go and live with them. There is a waitlist for those who are hoping to reside in the house as well.

I have been contacted by a few individuals on Reddit and Instagram to discuss our shared experience with Liana Shanti and the same pattern persists with all of us; that being the person who has the affiliation with Liana Shanti removes themselves and their children (if children involved) and takes them to other areas primarily in the USA to be homeschooled and out of the "systems reach".

Our stories are very similar in that my own family members started their journey by adopting a very strict vegan lifestyle, giving themselves a minimum of one coffee enema a day, gaining a newfound love and admiration for Jesus (Liana Shanti's version of Jesus), a belief that anyone with the COVID vaccines is dark energy and should not be associated with for fear of vaccine shedding. The unwavering belief and worshipping of Liana, and attendance to and completion of multiple courses of Liana's teachings; Mother Wounds, Father Wounds, Healing from the Narcissist, Inner Child Wounds, and strict isolation from family members and friends (also referred to as "the family cult" by Liana and one of her higher up followers named K A (real name is D H /alias is S R).

It is also a consistent pattern that her students have not met Liana Shanti in person or seen her face on camera (until Liana posted an AI looking video very recently) and that each member has been coerced to believe that they had been physically, sexually, mentally and/or emotionally abused by family members and/or partners with no proof or evidence of it happening and no record of police reports backing up claims. Another consistent is most of these families, inclusive of my own, involved their loved one moving or planned to move to one of the places in the world Liana had deemed safe. The majority of these "safe areas" are in the USA inclusive of Texas, Florida and Montana.

Many women (and a few men) have quit their jobs, sold their houses or apartments, picked up and moved to the USA because they were told to do so. These "safe places" were deemed to be places where you would be safe from the world ending as Liana Shanti has forecasted to happen in 2025. Many individuals who participate in Health Mastery programs also participate in the Lemurian Mystery School. This cult like affiliation provides individuals with courses in separating from the family cult, healing your Mother Wound, Father Wound, Narcissist healing, DNA activations and most recently the 12D Business School.

In my own family experience, my cousin left Regina to move to Florida because Liana Shanti told her that Saskatchewan is a Nazi cult province. These individuals, inclusive of my own family member, are coached and taught to believe situations of abuse happened to them at a young age with the help of Liana's resident therapist K A . They use these false allegations to further support their decision to isolate themselves, going so far as accusing their family and friends of stalking and harassment if they try to make any contact in any way.

I have personally spoken to families through connections made on Reddit (mentioned above) whose loved ones have been affected in all these similar ways. These victims have taken Liana's courses, isolated themselves from friends and families, removed their children from their families and spouses, and "healed themselves" by buying Liana Shanti's Health Mastery "diet plans" and cleanses, draining their bank accounts to purchase her other courses for thousands of dollars. They have quit their jobs, left careers and seek jobs that are in alignment with their true calling based on what Liana advises (strongly).

In April of 2022 I connected with B and S H in Saskatchewan through a mutual friend. I provided an affidavit for B and S during their battle to try and keep B 's daughter I (then 6 years old) in Canada. I 's mother H W r is also involved in Liana's following and showed signs of a possible attempt to flee to Florida, the same pattern of behaviours my cousin had shown (see timeline below). I have a very hard time standing by and watching the harm and manipulation of children which is why I was more than happy to offer support to them in whatever way I could.

Liana Shanti is a grifter. She is a fraud and a phony who hides behind her screen and bullies completely innocent people to try and legitimize herself. She has no regard for anyone and is manipulating and taking advantage of women and children for her own personal gain. She lies constantly, is a walking contradiction and acts with malicious intent. She claims to be practicing Jesus' teachings with 100% certainty but she only references parts of scripture to fit her narrative. Everything she teaches her students is the opposite of how she lives her life. She is completely ingenuine and is a con artist extraordinaire.

Timeline of my cousin R L (K A) and the progression of her involvement with Liana Shanti:

- R and I grew up together in Regina, Saskatchewan and I would say we were very close for a long time.
- She lived in Vancouver for a while and went to school at Blanche MacDonald for Fashion design. Other than that, she has been in Sask most of her life (Regina or Wolseley).
- While she was in Vancouver, we spent quite a bit of time together.
- She tended to exaggerate the truth as a child, but we seemed to understand one another.
- Her parents have always been extremely loving and supportive of her in whatever she did, and I know they financially supported her for a long time.
- She was not religious, but we went to church as kids and young adults.
- She loved to sing and was very much into fashion.
- She never abused drugs and was a social drinker like most adults. Nothing out of the ordinary.
- She has suffered from anxiety and panic attacks for a long time.
- R got involved with Liana Shanti late 2018 (I'm pretty sure this timeline is accurate, but it might've been earlier than that).
- R got more into confidence coaching and was working mostly with women. I always struggled to understand how she was making money and found it hard to be supportive because she had no background, experience or certification.

- R took the Lemurian Mystery School: Making of a Medicine Woman course (\$3500USD at the time) in the Summer of 2019 which she explained to me was a "certification" she was getting because it was important to some of the clients she was coaching.
- Link to course: <https://programs.lianashanti.com/lemurian-mystery-school-making-of-a-medicine-woman>.
- A B (now M O) reached out to Ri when she found out she was taking the Medicine Woman course.
- I remember having conversations with R about this course and she said she believed it was her "true calling" and that she had always felt a little psychic and intuitive but never really understood what it meant until she found the teachings of Liana Shanti. I specifically remember R saying she bawled her eyes out when she read a blog post on Liana's website because everything she said made so much sense to her.
- I slowly started to notice over time that the things R was posting was more and more of a stretch from what she had gone to school for (Fashion Design).
- She was getting further into coaching other women but still seemed to have a connection to the same friends and community in Regina.
- I still struggled to be supportive as she had no educational background to be able to coach people through real life traumas. I myself have gone to counseling for years and am a firm supporter and believer in self growth and self-reflection but, it was hard for me to see the things she was posting as authentic.
- I know the childhood she had and the things she was saying online about our grandparents and her own parents did not sit well with me; it wasn't true and was incredibly hurtful.
- The more time went on, the more 's posts and stories started to change into more of a focus on healing your inner child wounds, and your mother and father wounds.
- In May of 2020 she launched a new website claiming she was having massive internal and external shifts over the last 4 years which were a result of the deep healing she was doing
- She expressed that her external brand no longer matched her heart and soul with a discount code to her courses.
- More posts about letting go of your ego, feeling and seeing others' light, connecting with your inner self but her online friend group hasn't changed much.
- April of 2021, I made a comment on one of her stories about coffee enemas as I keep seeing it come up and I'm curious; is she being truthful and does she do this every day?
- She replies "yes! every morning. it's the actual best" followed by a list of benefits she believes it provides (super detoxifying for the liver, clears parasites, helps with yeast overgrowth, etc.) and then sends me voice memos detailing how she does it.
- R starts posting and is now offering courses about motherhood which made me extremely angry. I find it very pretentious and wrong considering she is not a mother and has no experience or merit to be an expert and offer others advice on the process.
- Nov 19th, my birthday comes and goes with nothing from her for the first time in my life.
- Late November 2021 she started posting online that she was selling all her things; clothing, furniture, jewelry, everything.
- I reach out and asked her if she was moving and we have a very surface level conversation. I ask her where she's going, and she says she's not totally sure but likely out of Sask. Immediately I think she's going to Hawaii because that's where Liana Shanti is. I am also concerned about the logistic as I know she is not vaccinated and won't associate with anyone who is.
- Early December I reach out to R 's Mom (my aunt) posting on Facebook that she and her husband (my uncle) are selling their house. I ask if she knows where R is moving to, and she tells me she's not 100% sure but that she will go wherever her nannying job family goes. I know she is nannying for A B (M O) who posts a story on Instagram of her arrival in Daytona Beach, Florida.

- Dec 10th, my sister sends me screenshots from Liana Shanti posts saying "Luciferian Narc story of the day: A student of mine planned on leaving the Nazi evil of Canada today. She told her narc parents. Narc parents went to the police to show them my IG. As sad and dark as that is, it also made me laugh. I can only imagine the ignorance of that conversation: Ummm hello there officer. There's a woman on Instagram educating people on how dark and evil this country has become, and how narcissistic horrible parents we are". I immediately reported Liana's Instagram account which I have tried to do many, many times without success.
- Jan 1-2, 2022, R is posting stories on IG as she is driving from Regina to Florida with a woman. I find her on IG; C P who I see is also involved with Liana's group.
- Jan 4th, R posts a photo of the people she's living with in Florida; they are all Liana Shanti followers and majority are women and their children. One man who is A B 's husband D B . I know at least 2 of the women have changed their names.
- Each of these women are all followers of Liana Shanti and have the same format for their Instagram accounts and business models; multiple offerings to get money from people, and a lot of them have direct links to Liana's course which means they are likely actively promoting Liana.
- Liana herself has multiple accounts set up to make her money (same concept as the Twin Flames leaders); HMI Nutrition (@healthmasteryinstitute), Salty and Sweet. No Meat (@the_salty_vegan), liana artist (@lianashanti.art) and it seems like a lot of the others are following suit.

Thank you for your time and allowing me to share my story.

Sincerely,

S L
