Re: Liane Wilson

Dear Judge Oki Mollway,

My 20 something was going through a difficult emotional phase and looking to deal with a heartbreak and PCOD-caused acne.

My child followed Liana Shanti in the hope of getting some spiritual advice as my child was working and staying alone away from family. Liana's HMI diet and coffee enema's caused them to lose tremendous amount of weight and pushed them into deep clinical depression.

We had to bring our child home and they needed hospitalisation several times due to severe dehydration due to the enemas prescribed in the HMI diet, Depression, B12 and Iron deficiency. When my child spoke to their "so-called Diet coach" (also part of Liana's group) the response was that they can only deal with the diet and cannot provide any other advice. What kind of dietician or nutritionist will reply like that unless they have very limited knowledge of nutrition. Since then we have consulted a nutrition scientist who has confirmed that being on this diet will cause multiple issues including brain fog, weakness, loss of hormonal balance and depression.

As the problems that my child was suffering from did not go away, and Liana's close coterie kept proclaiming on instagram that the diets are wonderful and they have benefitted so much, my child deduced that the fault is with them, and that to resolve them they must follow the balance programs of Liana. This is typical information and behaviour control by cults.

This led to listening to buying and listening to hypnotic audios on mother wound, father wound and narc wound, moon manifesting and family cult and others. In the weakened mental state my child began to see us (the parents) as the enemy. This has been the darkest period of our life where every day for several months our child listened to audios in which they were made to believe that by cutting off from friends, family they could heal. Additionally, the audios are such that a few negative Memories of childhood (some false) are blown out of proportion.

These negative emotions worsened our child's condition. To which Liana's advice on all her instagram pages is to not see a doctor or a therapist because they are all DARK and satanic - and so our child refused medical help too.

After 8 months of spiralling downward, listening to Liana's audios, cutting off friends, family and parents, and swinging between binge-eating and following the HMI diet, our child finally asked to see a medical professional as they suffered from the worst effects of deep depression.

When we took our child to the hospital for treatment Liana posted that we had kidnapped her and put her into a mental hospital - which is a lie and vilification of our character.

In conclusion, the influence on our 20-year old has been so devastating and long lasting. Even today, after 3 months of treatment, their thoughts are dark and negative and keep coming back. The eating disorder developed during the followership of Liana is proving difficult to cure. My child's career is broken and dreams shattered. We continue to support our child and getting her the best holistic help.

This testimony is not to seek anything for ourselves, but to put a restraining order on Liana so that she cannot ruin any other child's life like she's influenced our child's life.

Thank you for letting me share my story.

Sincerely,

S Y
