Dear Judge Mollway,

I would like to share my Liana Shanti experience. If my statement could help you to get Liana Shanti convicted, please use it.

My daughter E P (born the 24th of December 1995) liked to travel in South America. So after her study, she worked hard to have a year off to do some travelling.

November 2018, she started her trip in Cuba, then Mexico and the next stop before coming home to Belgium was Costa Rica.

She never returned to Belgium: she loved the country so much , started to work over there, and had a boyfriend.

After a year there was the break-up with her boyfriend, and to feel better she started to follow Liane Shanti. She followed the Illuminations Courses and the course about healing from a narcissist relationship.

After that she did the courses about the father and mother wounds. That's when she started to change and after she did the Family Cult Course, it got really bad.

Me and her sister visited her in January 2022, and it was a nice stay, she even wanted me to buy a house in Costa Rica (so we could be together more often). She was really grateful that I have given her the opportunity to study and travel (When she was 18, she already had spent a year as an AFS student in Bolivia). So in fact, she was a very independent girl and I was proud of her.

But when we were over there we also realized that she had changed: she was very angry about the fact that we were vaccinated against Covid and stated that our DNA would change because of the vaccination (!?) Then she told us about the courses and meditation that she did with Liana Shanti, she wanted us to do the same (what we

didn't do). She already had a complete different lifestyle: she never went to any party anymore, never drunk alcohol anymore, no cigarettes anymore, she went to sleep early and got up very early to do her Liana Shanti Meditation , she became a vegan and did all sorts of cleaning diets.

In the beginning I thought it was a good thing.. I even sponsored her longer stay in Costa Rica and all the courses she followed with Liana Shanti. How could I have been so stupid...

She began to state Liana Shanti on her Instagram account: and that is what started to make me worry and I realize that was the start of the complete rupture between her and me, her father, her sister, other family members and her Belgian friends.

All of a sudden, everybody was a narcissist, she became very religious, anti-vaxxer, anti-abortion, anti-euthanasia: whilst I raised her to be a free-spirit: no religion: only the respect for everyone's opinion and that everyone has the right /choice to do with their body what they wanted.

In July 2022, she wrote me a message that she no longer wanted contact with me and that I was no longer her mother. That she found out she was sexually abused by her father (?!) and that I never had been there for her.

I asked her several times to have a conversation via FaceTime but she refused and kept on throwing accusations to me and her father. Her father and I are divorced, I never suspected any sexual abuse and I still do not believe her accusations.

For several times she sent messages full of blame, hate and terror. I was devastated. It was not possible to get in touch with her anymore: she blocked us from her instagram account, her facebook even on the internet we can not find her anymore.

The last Instagram account we found of her was "beeinfullbloom". You should try to read this account. There you can read what she tells about me and her father. A bunch of lies, I mean, I know what I did for my children! And why on earth would she get away from her sister and all her friends as well. After she realized that we read her Instagram, she blocked us again...

I still cant send emails to her and the last time I did was on her birthday. I told her I could not understand that a free-spirited,

independent girl as her could be manipulated and brainwashed by Liana Shanti, but that she always could come home. That I will always be her mum and that no matter what I will be there for her. Her reply was full of hatred and anger. Although she claims that she has never been happier than now. Since then, I did not hear from her again and I didn't send any messages any more. It is so hard to process this... I hope she comes to her senses in due time

My only conclusion about this is that Liane Shanti is some sort of a guru, who manipulates and brainwashes people in their weakest times. I do not know how she can do this but she should be stopped!

In the meantime we read that Liana Shanti stated that Costa Rica was full of black, bad energy, so we thought: E will not stay there for long any more.

And guess what, she moved to Portugal in February and is now living in Lisbon. I even think she is a Liana Shanti instructor now, because via via I could see her instagram account once again and she tried to convince people to contact her to follow a Liana Shanti Course (she states that she knows how people feel because she experienced a bad childhood, with abuse and neglect....)

I know she moved to Portugal because she changed her home address to Portugal, the register officer came in contact with me to ask if she really moved out.

I told her the story but she said that she could not give me the address (privacy rules), only that she lives in Lisbon now.

Anyhow, Portugal is Europe so for me it's better that she is closer to home....

I hope this story can help you to stop Liana Shanti. If you need any other information, please contact me.

Best regards, and good luck
